

1.0 EXECUTIVE SUMMARY 10

1.1 Analysis of Contract Awards 11

The majority of outsourced logistics contracts are national - within country borders 11

Chart 1: Logistics Contracts Awarded by Geographic Scope, 2003 11

The majority of contract awards are three or five year agreements..... 12

Chart 2: Logistics Contracts Awarded by Contract Length, 2003 12

A significant proportion of contract awards are worth up to EUR50.0 million..... 13

Chart 3: Logistics Contracts Awarded by Contract Value, 2003..... 13

1.2 Decision Making – Responsibility..... 13

A wide variety of job titles are responsible for logistics, whether a board-level decision or not 13

A wide variety of personnel are decision-makers concerning logistics outsourcing..... 14

1.3 Decision Making – Outsourcing..... 14

Warehousing, purchasing and value-added services are most common in-house activities 14

In-house logistics activities are often key competences for companies 14

Cost is the number one feature of logistics outsourcing..... 14

Companies decide to approach 3pls mainly based on ‘internal information’ 15

Chart 4: How do you decide which third-party logistics provider(s) to approach? 15

Approximately two-thirds of respondents only approach between one and five 3pls 15

Formal approaches to 3pls account for 58.7% of respondents..... 16

1.4 Decision Making – Geographical 16

National and centrally-organised decisions (for Europe) on outsourcing and purchasing logistics are equally balanced 16

Companies are increasingly looking for pan-European logistics solutions..... 17

Chart 5: Are you looking for a single pan-European provider of outsourced logistics services or are you satisfied with a multi-country approach? – Now and in five years..... 17

Supply chain directors are positive about the benefits of pan-European outsourcing 18

Pan-European logistics provision should be driven by retailers and manufacturers..... 18

1.5 Third-Party Relationships..... 18

Once the contract is won, 3pls are not pro-active enough..... 18

Improvements can be made to the process of selecting a logistics provider 19

Innovation, value-added services and better IT services required from 3pls in the future 19

There is some interest in fourth-party logistics..... 19

General comments provide strategic insight into the role of 3pls..... 20
